Revision number: 2

Date: August 2012

ERRATUM:

Code of Practice for the Absorbed Dose Determination in High Energy Photon and Electron Beams (NCS Report 18, January 2008)

Page 28   Formula (13) should read:

$$N_{D,w,Q_{cross}}^{pp} = \frac{M_{corr,Q_{cross}}^{cyl}}{M_{corr,Q_{cross}}^{pp}} \cdot N_{D,w}^{cyl} \cdot k_{Q_{cross}}^{cyl}$$

Page 30   line 6 from below: change A 5.4 in A 5.5.

Page 54   Table 10: change PTW 34001 in PTW 30012.

Page 68   Table 14: change in step 2 factor in coefficient.

Page 68   Table 14: delete "a" in line "*Combined uncertainty in Step 2a".*

Page 69   Table 15: change in step 2 factor in coefficient.

Page 70   Table 16: change in step 2 factor in coefficient.

Page 80   Heading "*Dose meter reading*", add in line 6 under heading the word "to" after "…± 0.5…"

Page 81   Heading "*Deviation of chamber position (depth) in phantom"*, second line under heading should read: "The uncertainty in positioning at the reference depth is 0.1 mm in terms of one standard deviation resulting in a relative standard uncertainty of 0.06%."

Page 82   Line 3 after heading "Table 20": the value for the combined standard uncertainty of the result: $u(D_{w,Q})/ D_{w,Q}$ should be ≈ 0.8% instead of 1.0%.

Page 82   Table 20, heading column 2 should read: "relative (expanded) uncertainty".

Page 82   Table 20, heading column 6 should read: "relative standard uncertainty".
